Subpart 2430—Criteria for Disposal Classifications

§ 2430.1 Use of criteria.

In addition to the general criteria in subpart 2410 the following criteria will govern classifications under the authorities listed in §2400.0–3 for sale, selection, grant or other disposal under the Public Land Sale Act (78 Stat. 988, 43 U.S.C. 1421–1427) and other laws authorizing the Secretary of the Interior to dispose of public lands. The criteria are set forth in terms of land use classes. Where appropriate, the applicability of specific disposal laws to lands in each use class is discussed.

§ 2430.2 General criteria for disposal classification.

The general approach to determine the act under which lands are to be classified and disposed of is as follows:

- (a) Consideration under criteria listed in this part will first be given to whether the lands can be classified for retention for multiple use management, for disposal, or for both. If, under these criteria, they could be classified for both, the principles of §2410.2 will be applied.
- (b) If the lands are found to be suitable for disposal, consideration under the criteria of this part will be given to whether the lands are needed for urban or suburban purposes or whether they are chiefly valuable for other purposes. Lands found to be valuable for public purposes will be considered chiefly valuable for public purposes, except in situations where alternate sites are available to meet the public needs involved.
